

GWE pumpenboese GmbH
Moorbeerenweg 1
D - 31228 Peine

hereby confirms, that the production process for wire wrapped screens at

GWE TUBOMIN S.A.
Los Arrayanes 450
Colina – Santiago

is identical to the standard that GWE Germany uses for making this product.

The wire wrapped screens are produced according to fixed proceedings that are identical to the German machine standard of GWE pumpenboese. Production is carried out on Machine SLV031.

We carry out regular checks on the quality of the production process and of the finished product. The production method is clearly described, our local staff is well trained and compliance with the production method is continuously monitored

Peine, 06th November 2013
